SEVENTY-ONE ARMY AIRPLANES TAKE AIR IN CROSS NATION FLYING TRIP

NEW YORK, Oct. 8.—The largest aerial race in history began at 9:15 a. m. today when 71 aeroplanes started on a transcontinental flight between New York and San Francisco. Half of the aeroplanes were scheduled to leave Mineola and the remainder were to start from San Francisco.

The race across the continent and back—more than 5400 miles—was scheduled to take at least 12 days. Lieut. J. B. Macklay commander of No. 17 a De Havilland 4, got away at exactly 9:10 1-2. Two minutes later Brig. General L. E. Middleton took the air in a No. 9 Bristol.

SAN FRANCISCO, Oct. 8.—The big aeroplanes in the transcontinental race left the grounds at the Presidio at 6:50 this morning. The plane, a De Havilland 7, commanded by Lieutenant J. A. Richards with Lieutenant J. B. Haven as observer were first to leave. Fourteen others took the air at two minute intervals.

MINEOLA, N. Y., Oct. 8.—H. G. Crowell, assistant secretary of war narrowly escaped injury this afternoon when an aeroplane in which he was riding fell 50 feet to the ground. Both Crowell and his pilot, Capt. Cleary, were buried under the machine. The accident occurred when Cleary tried to avoid hitting a hangar. Crowell announced his intention to go up at once in another machine.

BINHAMTON, N. Y., Oct. 8.—Col. Alfred Brandt driving plane No. 4, crashed to the ground about one mile north of Deposit, near here this morning. Col. Brandt was found with both arms and both legs broken in an unconscious and apparently dying condition. Serg. W. C. Newitt, a passenger was injured about the head and was so dazed he was unable to tell what happened. It is believed he will recover. The plane was completely wrecked.

NEW YORK, Oct. 7.—At the Mineola race, a hundred miles or more an hour. An international aspect has been given the race by the entry of machines officially representing the British and French Air services. The rules of the race will be the same as those of the New York-Toronto transcontinental race tomorrow morning. The start is timed for 9 a. m. stops of 30 minutes at each of the 11, when 57 fast aeroplanes will soar into the air for the beginning of the competition of each machine will be 2,700 mile race across the continent. At the same hour 23 similar machines will rise at San Francisco and start on a transcontinental flight eastward, with Mineola as their objective point. The race of the eighty aeroplanes from ocean to ocean will be without precedent in the history of aviation. Each of the machines entered is of the fastest type, capable of maintaining an average speed of 110 officers.

SPEED OF TRAIN RESPONSIBLE FOR DEATH OF KELLEY

Accidental death due to a speeding train on the Pennsylvania railroad was the fate of Secretary Joseph Kalbfus and Superintendent E. W. Kelly, of the State Game commission Sunday, August 10, 1919, was the verdict returned by the Coroner's jury which reached a decision Wednesday.

The two officials of the State Game Commission were on their way to this city in a Dodge automobile and when at the Fairley crossing this side of Saybrook were killed. An express train running at close to 60 miles an hour struck them and Dr. Kalbfus was thrown high in the air and almost instantly killed and Kelly died for a few moments.

Inquiry into the cause of their death to ascertain whether or not there was any criminal negligence apparent was at once undertaken. The coroner's jury, composed of A. S. Bogart, L. P. Gibson, L. A. Clark, E. J. Larson, F. Conroy and A. C. Berga, diligently inquired into the accident and the following verdict was returned: Ebas Woodward Kelly and Dr. Joseph H. Kalbfus were accidentally killed on August 10th, 11:52 a. m. 1919 at Fairley crossing, Mead township, Warren county, Pa., by an express train on the Pennsylvania railroad, United States Railroad administration going east. We recommend to the Pennsylvania Railroad commission and to the State Highway commission the abolishment of the grade crossing at Fairley crossing, Saybrook and the establishment of a grade crossing on either side of the crossing.

Many Witnesses Called
Several witnesses were called yesterday among them the train crew and residents of Saybrook who had testified previously. They were given a thorough cross examination by Attorney Gleason, of DuBois, who was in the city representing the Kalbfus and Kelly families. The cross examination roused the ire of Attorney Cossiter of Erie, who represented the railroad at the hearing. Both clashed several times verbally and finally both left the room when the train sheet of the railroad showing the running time of the train was asked for in evidence. This showed the train to have run from D. W. tower at Warren to the Clarendon tower a distance of six miles in seven minutes. This convinced the jury that the train was making about 60 miles an hour when the accident happened.

A civil suit will undoubtedly result with the families of the dead men asking damages from the railroad company for the death of the two men.

BEAUTIFUL WOMEN A FEATURE OF PLAY TONIGHT

There are many beautiful types of fascinating girlhood in George V. Hobart's modern morality play, "EXPERIENCE." Mr. Hobart spent two years in writing the play, but an even greater task confronted the producers, selecting the various types of girls for the play. As Mr. Hobart had chosen in "EXPERIENCE" to have the various vices and virtues which Youth meets when he goes out into the world in search for fame and fortune, impersonated by charming young ladies, in order that just the right types be selected, a committee of artists was asked to assist in choosing the young ladies for the various roles. For the character of Love, hundreds of girls were considered before an ideal was found. Then there was much difficulty in selecting one to play Frivolity. This is a particularly difficult part and requires a young girl with a certain manner of reckless abandon. Then there was another tiresome search to find the young lady for the character of Excitement, for she must be restless, alluring and even dangerous. Just stop to think a moment if you know of any woman who could fill these specifications and then portray them on the stage, and you may appreciate the task that confronted Wm. Elliott, F. Ray Comstock and Morris Goss, the producers of "EXPERIENCE." One of the greatest difficulties they had was to find a young lady for the role of Slander. This is a character that carries with it the eternal indictment against womanhood. Until it was seen by the actors that Slander was a good part, she would undoubtedly refuse to accept it. This same trouble was found in selecting a young miss for the role of Deceit. Three of the most important characters in "EXPERIENCE" are Passion, Intoxication and Frailty. The greatest possible care had to be used in selecting a young lady for Frailty, and as for Passion, it was found that the greatest discrimination must be used in selecting an actress for this role. To put a vulgar woman in the part of Passion would make it absolutely repulsive, and so it was found necessary to find an actress who had both breeding and personality, and particularly must she be a capable actress to play the part of Passion. For Intoxication, it was discovered that the only one who could play this was a young person whose strongest beverage was from the soda fountain. These are a few of the difficulties that were successfully overcome by the producers in selecting the young ladies for the various roles in "EXPERIENCE."

"EXPERIENCE" comes to the Driggs Theatre tonight.

ALTOONA WORKMEN TO BE LAID OFF
ALTOONA, Oct. 8.—Fifty boiler makers and 25 helpers employed in the Juniata shops of the Pennsylvania railroad have been notified they will be laid off October 14. A temporary shortage of steel is no doubt responsible.

In order to determine the nature of the work which will succeed their war services, the national board of directors and the state and local chairmen of the National League for Woman's Service is soon to hold a conference in New York City.

Consideration of problems on an international scale to elevate the plane of woman's labor in the world will be taken up by the International Congress of Working Women, which is to meet in Washington this fall.

GRAMPIAN VILLAGE HAS DISASTROUS CONFLAGRATION

The little town of Grampian was visited by a disastrous fire last night about 10 o'clock when the frame building housing Alex McGrath's store and the barber shop and pool room of "Rit" Wertz and the plumbing establishment of Clyde Hepburn were totally destroyed together with the bulk of their contents.

It is said the fire was caused by the explosion of a barrel of roofing cement in the ware room of the plumbing shop. The flames quickly spread despite the noble efforts of Grampian's bucket brigade. The Curwensville fire department was called upon for help and Chief Benner and Curwensville's fine new gasoline pumping engine was soon enroute to the scene. They got into action promptly on their arrival and after a few minutes hard work had the flames under control.

The loss is estimated at \$15,000. Mr. Hepburn was drawing the cement from the barrel into cans when the explosion occurred, and was enveloped by the flames, and severely burned about the face and body.

Tom Moore, William Bachler and Mike McGrath were also painfully burned about the hands and face during the fire. Mr. McGrath's loss is about \$5,000, with no insurance, while Mr. Hepburn will lose \$1,000 and he was also without insurance. Wertz's loss of \$1,500 was covered by insurance.

GULF STREAM SAID TO BE HOT ENOUGH TO POACH EGGS

NORFOLK, VA., Oct. 8.—Marine men blame the Gulf Stream for the summer weather now prevailing along the Atlantic coast. They say the water of the Gulf stream is almost boiling.

In Norfolk today the temperature was 86 degrees. A hundred miles out to sea just before the Gulf stream is reached the temperature was 101, according to information brought here by marine men. Within one day's run from Norfolk by water there is a difference of nearly 40 degrees in the temperature. It is as hot in the Gulf Stream, marine men say, it is almost unbearable to remain on deck during the day.

Vessels passing through the peculiar water during the day say the weather is hotter than they have ever experienced before. A difference in the temperature of the water dipped from the Gulf Stream with buckets from ships with that of the ocean itself is the difference, marine men report, between moderately cool water and that warm enough to poison an egg. The Gulf Stream water is lighter than the remainder of the ocean and when first dipped foams and bubbles like water just on the point of boiling.

It was reported today that an American destroyer would go out to the Gulf Stream with a party of experts for the purpose of making observations for use by the government and to ascertain if reports brought in by merchant ships are authentic.

Local Business Man Does'nt Care If All the Babies Starve

Attempts To Chase Solicitors From Store With Weapon And Calls Them Vile Names

INSULTS PUBLIC SPIRITED MEN

"The man who cannot hear the cry of the starving babe, the man who is deaf to the entreaties of the frantic mother, the man who cannot respond to the necessities of aged men and women, surely cannot be called a Christian."

—From Progress of October 4th

Lives there a man with soul so dead, who never to himself hath said, the dollar I might give would save life and health for starving babies.

There is such a fellow (we cannot call him a man) and he lives and is doing business right here in Clearfield.

The soliciting campaign for the Jewish War Relief fund was begun in Clearfield Monday and the energetic committees in charge are meeting with pretty general success. A committee composed of J. B. Nevling and A. Mirkin called upon the business men we have in mind on Monday and were refused a contribution on the ground of inability to contribute.

Tuesday morning, as is the general practice in these drives another committee composed of Messrs. Joseph Littman and W. P. Sheeder visited the same store on a similar errand. Mr. Littman was the spokesman. On entering the place Mr. Littman said: "Mr. _____, we are a committee of Clearfield business men engaged in soliciting money for the Jewish War Relief; one merchant in your line gave \$50, another \$10 and you of course may give what you see fit."

The person addressed replied: "To hell with you Jews; I wouldn't give a cent to save ten of you from starving."

Mr. Littman then replied, "Well, my dear sir, you must understand that this fund is being raised to buy bread for the starving people of the war ravaged lands of Europe and when a bread line is established an American bounty handed out it is supplied to all the needy Jew and Gentile alike."

With ignorant boorishness the person addressed then replied:

"To hell with you _____; get out of here you Christ killer," and with that rushed over to the counter and picking up an iron cleaver or box opener made as though to drive them from the room.

Mr. Littman walked right over to the fellow and in a quiet voice said, "Don't try to intimidate us with your weapon; we are not afraid of you, the law will protect us in this matter. We are business men like your self. I have given \$100 to this fund, Mr. Sheeder has given \$50 and in addition thereto we have put aside business for the day and are giving our time to this work as a duty to our humanity and as a matter of public duty. Personally you have hurt my feelings to such a depth that I cannot express, but I want to tell you that you are a disgrace to humanity and to Clearfield and Clearfield business men."

With that parting shot the gentlemen left the store with the raucous voice of the "disgrace to Clearfield business men" hurling epithets after them.

When the story was first given The Progress we could hardly believe that Clearfield had within her borders a man who harbored such dark age feelings, but after visiting the solicitors price to quick buyer. Irwin Drug named we were assured that the Co., Clearfield, Pa. 08-3t-ch facts were as stated herewith and we

THIRD WARD RESIDENT DEAD

Mrs. Mary A. Dale, widow of the late John C. Dale, passed away at the home of her son Samuel Dale, on the Third ward, Tuesday morning, October 7, 1919, at 10 o'clock in the 89th year of her age.

The deceased had been in failing health for some time and her death was not unexpected. She was a consistent member of the Presbyterian church and enjoyed the respect and esteem of a wide circle of friends.

Her husband died last year and she is survived by a family of eight children as follows: W. Milton, Benjamin, Frank, William, Mrs. R. L. Whitehill, Ezra, Samuel and Mary Henderson, of Clearfield and Mrs. William Wilson, of Suwayor.

The funeral will be held at her late home Thursday afternoon at 2 o'clock. Rev. R. B. McLaughlin officiating. Burial at Mt. Joy.

STARK OPENING

NEW YORK—The stock market opened today with a sharp drop by strength among leading issues. United States Steel opened at 107 1/2 up 1/2, Bethlehem at 103 1/2, Central Leather at 110 up 1/2. Mexican Petroleum at 216 off 1/4.

SLIGHT FIRE IN EAST END

Mooley scolded the fire about 1:50 this afternoon for a small fire in Wrigley Avenue. The firemen all turn out but the fire had been extinguished by the time of their arrival.

POCKETBOOK FOUND

A pocketbook belonging to Mrs. John Hiram, of Clearfield, or Lumbertown, was found on Second street today by a school boy, Shone and left at The Progress for the owner.

MARY A. DALES FUNERAL

The funeral of the late Mrs. Mary A. Dale will be held from the home of her son Samuel Dale on the Third ward on Thursday afternoon at 2 o'clock. Interment in Mt. Joy cemetery.

JEFFERSON COUNTY RELIEF FUND HAS NEAR BEER SELLERS GOOD SUPPORT FROM ARE IN DANGER LOCAL PEOPLE

Hundreds of cigar, grocery and fruit store dealers in Jefferson county have laid themselves open to arrest and prosecution on charges of breaking the Brooks high license law by selling various beverages containing alcohol, although its volume is less than 2.75 per cent, according to a decision just given by Judge Charles J. Corbett.

Constables of the neighboring county have been making inquiries of county authorities concerning the provisions of the Pennsylvania prohibition act with the result that there may be many arrests made in the near future.

Answering the query of a constable one county official stated that the Pennsylvania Prohibition Enforcement act prohibited the sale of beverages of "any" alcoholic content and that persons engaged in the whole sale or retail distribution of beverages known to contain even so little as 1-10th of one per cent of alcohol were liable to arrest and prosecution and that it was the constable's duty to make such return if he has knowledge of such sales.

The opinion of the official in question was confirmed yesterday by Judge Charles Corbett who stated that the state law was very specific and that any person engaged in the sale of any beverage whatsoever, containing the slightest percentage of alcohol, was liable to arrest and punishment under the provision of the Enforcement Act.

The National Prohibition Enforcement Act and that of Pennsylvania differ in some respects but those in this state who are engaged in the sale of beverage containing alcohol in the belief that they are protected by the National act are declared to be apt to find themselves "in Dutch" with the state or county authorities.

OLD VETERAN SERIOUSLY INJURED

Samuel Snook, a Civil War veteran who has been in failing health for some time, met with a serious accident at his home on Third street last evening about 6 o'clock, when he fell backwards down a flight of stairs leading to the second floor. He suffered a double fracture of one of his ankles along with other serious cuts and bruises about the head and body. He was taken to the Clearfield hospital for medical attention and where he is lying in a critical condition.

INVITATIONS ISSUED

Mrs. J. W. Gordon has issued invitations to a dinner party at her home on Locust street, Friday evening, October 10th.

I saw it in The Progress.

Local people are responding nicely to the plea of the Jewish War Relief Campaign and the fund is growing every hour. A number of the local business men are giving their time to the work.

The campaign looks very hopeful and as soon as the house to house canvass subscriptions are reported there is expected to be a considerable amount added to the fund. The fund is growing like a weed and with three days to go it should easily reach the quota. The quota in Blair county has already been three fourths reached and they should go over the top easily.

The actual canvassing for the fund being raised for the relief of the Jews in Europe has been started in Clearfield and will continue until the quota is raised. It is anticipated by the Chairman and the committee that the quota will be raised within one week at the outside. And this is just what is going to happen if continued hustling can do it. The committee has mapped out its plans in a thorough manner and will have an energetic committee of solicitors at work during the ensuing days.

It is absolutely necessary for every community to do its full duty in regard to raising money for this cause. It is without a doubt one of the most worthy that has ever been presented to this country. There are thousands of children in countries of Europe who will starve beyond the peradventure of a doubt unless there is a liberal cash contribution from the United States. These children and infants are to have no opportunity for life unless aid comes—and comes quickly. It is no fault of their own nor of their parents that they are thus situated. It is not exactly the fortunes of war, but rather the fortune of the post-war period. They have been made to suffer untold hardships, indescribable suffering and given no chance for working out their own salvation, and it is only through the generosity of the people of other countries that will carry them thru the winter that is facing them.

It is a safe proposition that the people of this country will respond in a generous manner if they see the light, all that the committee asks is that their cause be given a fair hearing. It is felt that if this hearing is given that there will be no question of a quick response and a liberal one.

Invest In a Human Life

This little one, and 800,000 like her in Europe alone, must die if YOU close your heart.

From the day the founder of her race rose up against the idolatry of his fathers and found the true God, and gave unto mankind a God of Love and a God of Mercy, many hands have risen against her. Yet she lived that Religion might not die.

Today, when Jew and Non-Jew have united in a common brotherhood, when in America, in England, in France, in Russia, in Poland, the son of Abraham and the follower of Christ bound in common memories of heroic sacrifices on the battlefield that Civilization and Humanity might be preserved, have struck the hand of friendship — today, this little child and all of her race are facing absolute extermination. Not a human persecutor now—Famine and Pestilence and Cold have united against these helpless ones. They have but one salvation.

You Alone Can Save Them

This is a campaign by Jewish Relief Agencies for a fund which is disbursed by Jewish representatives. But the only question asked by these men is the need of the applicant.

WANTED—High school girl wants place to work mornings and evenings for board. Apply 213 Clearfield street. OS-7tp

SPORT NOTES

Young McCoy, the Altoona middle-weight boxer who was signed up last week by Promoter DeLozier and manager Edwards to meet Johnny Wolfgang of Lancaster at the Clearfield Driving park on October 16th, arrives in town this morning and will remain here until the bout is pulled off, doing his training in the gym in rear of Edwards' bowling alley on Third street.

The boxing bout at the Driving Park next Thursday evening, October 16th will be between Young McCoy, of Altoona, and Johnny Wolfgang, of Lancaster. This match was arranged last week and in consequence thereof the McCoy-Ike Griffin scrap cannot be held until later on. It is expected now that Griffin will be matched with the winner of the McCoy-Wolfgang battle.

The Roberts-Platts wrestling bout at the Park Friday evening is attracting a great deal of local attention and Roberts will be the favorite of many of the local followers of the game when the two men go to the mat.

WORN NERVES

Nervous troubles, with backache, dizzy spells, queer pains and irregular kindneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors.

Mrs. Mary Passmore, 419 West Front street, Clearfield, says: "I suffered for a good many years with kidney trouble. Whenever an attack came on, my back became lame and sore and I had a dull pain across my kidneys. My kidneys would annoy me by acting irregularly and I would become nervous and restless. I had frequent headaches and dizzy spells, but at such times I used Doan's Kidney Pills, which I would buy at Dooly and Stewart's Drug Store, and they always gave me relief, easing the pains in my back and regulating my kidneys."

Mrs. Passmore gave the above statement Dec. 7th, 1915. On Feb. 17th, 1919, she added: "I think as much of Doan's Kidney Pills as I always did. I still use them occasionally with good results."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Passmore had. Foster-Millburn Co., Mfgs., Buffalo, N. Y.

BROWN'S

Four Reason's Why It Pays To Trade At BROWN'S

BROWN'S through their four stores do a large volume of business on shoes exclusively.

BROWN'S sell high grade shoes at moderate prices—no high priced novelties and worthless cheap truck.

BROWN'S four large stores are in reality one immense store. All carry the same line at the same prices. Each one draws on the others for sales needed, balancing size runs and allowing better service.

BROWN'S system reduces the volume of odds and ends that have to be sold at a sacrifice which permits them to sell shoes at a closer margin of profit.

LOOK! LISTEN!
Terms of sale strictly cash. No goods sent on approval. Mail orders and phone orders will not be filled.

STOP! READ!
One thing which we wish to impress upon your mind, and that is, no firm is disposing of their merchandise at such low prices, unless they are compelled to do so. As it would cost more than the regular retail price to replace them, do you realize that it is hard to get merchandise at any price, this is the reason so many are going out of business. There is no such thing as cheap merchandise now.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Edward Benson, one of the town's mail carriers, has sold his property at Nantux, in borough limits, to Harry Turner, receiving for the same the sum of \$1650.

Mr. John Raybold, who was a telegraph operator at the P. R. R. station here some years ago, now residing in Altoona, was a Curwensville visitor over Sunday.

Harry Howell has sold and transferred his property over on South Side, to Charles Lord. Consideration, \$1,400.

Messrs. Merrill Caldwell and O. C. Norris, while on their western auto trip and during their stay in Montana, secured a number of Elk horn specimens. They were boxed and shipped over two months ago and only arrived here Saturday. The horns are fine looking ones, several of which measure four feet in height. They are certainly valuable and a great curiosity for Curwensville boys to feast their eyes upon.

Linn Daugherty, one of the leading hardware dealers of Curwensville, is somewhat of an artist in his way, judging from one of his store window displays, trimmed to represent the autumn months. A small tree, with its leaves colored in a thousand different tints, stands in the center of the front window, and a group of hedges, partially encircled by holly leaves, two pine needles, and a few red berries, making the scene a typical

autumn one. A card in the window, the reading of which is a puzzle to the small fry. It says: "Can you find the Rabbit in the Window?"

We have been requested to announce that the regular business meeting of the Ladies Aid Society of Curwensville will be held on Saturday night, after the prayer meeting, at 8 o'clock.

A Curwensville man was heard to ask yesterday "What do they want with so much money for this Jewish relief fund?" Here is his answer and let him who reads ponder over the words well and let them sink deeply into his mind and soul: "Starvation is the cause of the campaign." Five million souls, old men, old women, and little children in Poland, Lithuania, Russia, Palestine, Galilee, Turkey, Syria, Roumania, Greece and Bulgaria are in imminent danger of starving to death this winter. The cause of this condition is indicated by a statement of Herbert Hoover, who says that at least one million people will die of starvation in Eastern Europe this winter—and this despite the combined efforts of American relief agencies. Countless others will perish from the horrible scourge of hunger and cold unless America comes immediately to their aid.

There are six million Jews constituting almost one-half of all the Jews in the world and most of them are children and old people; the fit having been used for Russian cannon fodder. The Jews themselves have, up until now, taken care of them but the burden has become too heavy.

THIS COLUMN FOR BOYS AND GIRLS AND PARENTS

"I Like the Campfire Squaw"

By R. K. Alexander
Hunting Eye heard a scream. He ran down the bank of the river. A girl was struggling in the water. He dived in, swam to her and brought her to shore. By that time many more girls were on the bank. Hunting Eye was surprised to see that, although white,

they wore clothes like the girls of his tribe.

The girls were amazed to see the athletic young Indian who swam so swiftly and powerfully. They told him that he must go with them to the Guardian of the Fire.

"What fire?" asked Hunting Eye.

"Oh, we are Campfire Girls. The girl you have just rescued is the head of the Campfire."

Soon they came to the camp. The Guardian thanked Hunting Eye. The girls collected wood, made a roaring fire, and while Hunting Eye's wet clothes were drying, they told him all about the Campfire Girls.

"All Campfire Girls," they said, "begin as Woodgatherers. They learn about health, home-craft, nature lore, camp- and hand-craft, business and patriotism." Their watchword is "We help."

"What does 'We help' mean?" asked Hunting Eye.

"It means Work, Health, Love; it is the first two letters of each word. If the Woodgatherer works, she can become a Firemaker, but first she must know how to cook a meal, how to use the useful knife and what to do when someone's clothing catches on fire, or when someone is drowning, or faints, or has an open cut, or a frost-bitten foot. She must know the words of 'America'."

"What is 'America'?"

The girls sang it for him. "I like the song," he said. Then they filled his pouch with good things to eat, and as Hunting Eye started out again, he thought, "I like the Campfire squaws."

Hard Wood for Outdoor Fire

By Adella Belle Beard
HICKORY is a hard wood; it makes the best fire, burns long and leaves a bed of hot coals that last for hours. Of course you know a hickory tree when the nuts are on it, but can you identify one without them?

The skeleton of the shag bark hickory shows a trunk forked into two or more divisions, with irregular branches here in several directions. Some branches grow slanting upward, some at right angles from the trunk, while others start up, then make a deep curve downward. The bark is ragged and untidy, the wood strong and tough. From five to seven leaflets grow on one stem. They are long, rather narrow, have saw-tooth edges and tapering tips. The blossoms are katkins, light green, slender and growing in threes.

The wood of the WHITE OAK is hard and strong and comes next to hickory as a good fire wood. The tree is large and the trunk undivided, but at the top curving and sending out the branches. The limbs are long and strong, the branches gnarled and twisted; the lower limbs grow at right angles to the trunk. The bark is light gray and the acorns fit in rough, shallow cups. The leaves have rounded lobes.

BLACK BIRCH (sweet birch) is also a hard wood that makes good fires. It is certainly a beautiful tree, summer and winter. You will know it by its bark which closely resembles that of a cherry tree. It is dark on the trunk, golden brown and glossy on the slender stems. The young trees have smooth trunks but on older ones the bark is split lengthwise as if slashed with a knife. The leaves are ovate, wide at the bottom with pointed tips, and have straight ribs. The flowers are katkins and there is a little acely fruit the shape of a nutberry.

Other hard woods that burn well are ironwood, dogwood, locust and mulberry.

Makes Cooking Easy

Any Time Is Baking Time With A Glenwood

The Easy Rolling Twin Grate Bars, neatly geared to roll forward or back, so quickly clean and brighten the old fire that perfect baking can be done at any time—morning, noon, or night.

The Marvelous Glenwood Oven, surrounded by hot air chambers is under perfect control, and can be uniformly heated to the moderate temperature of 300 degrees for the most delicate cake, or quickly advanced to the correct biscuit heat of 450 degrees.

This is made possible by the Glenwood Balanced Oven Damper and the Patented Glenwood Indicator that accurately registers the heat already in the oven and tells at a glance whether to open or close the sliding air valve. It's so plain and easy a child can understand.

SEVENTY-ONE ARMY AIRPLANES TAKE AIR IN CROSS NATION FLYING TRIP

NEW YORK, Oct. 8.—The largest aerial race in history began at 9:15 a. m. today when 71 aeroplanes started on a transcontinental flight between New York and San Francisco. Half of the aeroplanes were scheduled to leave Mineola and the remainder were to start from San Francisco.

The race across the continent and back—more than 5400 miles—was scheduled to take at least 12 days. Lieut. J. B. Macklay commander of No. 17 a De Havilland 4, got away at exactly 9:10 1-2. Two minutes later Brig. General L. E. Middleton took the air in a No. 9 Bristol.

SAN FRANCISCO, Oct. 8.—The big aeroplanes in the transcontinental race left the grounds at the Presidio at 6:50 this morning. The plane, a De Havilland 7, commanded by Lieutenant J. A. Richards with Lieutenant J. B. Haven as observer were first to leave. Fourteen others took the air at two minute intervals.

MINEOLA, N. Y., Oct. 8.—H. G. Crowell, assistant secretary of war narrowly escaped injury this afternoon when an aeroplane in which he was riding fell 50 feet to the ground. Both Crowell and his pilot, Capt. Cleary, were buried under the machine. The accident occurred when Cleary tried to avoid hitting a hangar. Crowell announced his intention to go up at once in another machine.

BINHAMTON, N. Y., Oct. 8.—Col. Alfred Brandt driving plane No. 4, crashed to the ground about one mile north of Deposit, near here this morning. Col. Brandt was found with both arms and both legs broken in an unconscious and apparently dying condition. Serg. W. C. Newitt, a passenger was injured about the head and was so dazed he was unable to tell what happened. It is believed he will recover. The plane was completely wrecked.

NEW YORK, Oct. 7.—At the Mineola airport a hundred more aeroplanes and mechanics were given the race by the entry of machines officially representing the British and French Air services. The race will be the same as those which governed the New York-Toronto transcontinental race tomorrow morning. The start is timed for 9 a. m. stops of 30 minutes at each of the 11, when 57 fast aeroplanes will soar into the air for the beginning of the competition of each machine will be 2,700 mile race across the continent. At the same hour 23 similar machines will rise at San Francisco and start on a transcontinental flight eastward, with Mineola as their objective point. The race of the eighty aeroplanes from ocean to ocean will be without precedent in the history of aviation. Each of the machines entered is of the fastest type, capable of maintaining an average speed of 110 officers.

SPEED OF TRAIN RESPONSIBLE FOR DEATH OF KELLEY

Accidental death due to a speeding train on the Pennsylvania railroad was the fate of Secretary Joseph Kalbfus and Superintendent E. W. Kelly, of the State Game commission Sunday, August 10, 1919, was the verdict returned by the Coroner's jury which reached a decision Wednesday says the Warren Mirror.

The two officials of the State Game Commission were on their way to this city in a Dodge automobile and when at the Fairley crossing this side of Saybrook were killed. An express train running at close to 60 miles an hour struck them and Dr. Kalbfus was thrown high in the air and almost instantly killed and Kelly died for a few moments.

Inquiry into the cause of their death to ascertain whether or not there was any criminal negligence apparent was at once undertaken. The coroner's jury, composed of A. S. Bogart, L. P. Gibson, L. A. Clark, E. J. Larson, F. Conroy and A. C. Berga, diligently inquired into the accident and the following verdict was returned: Ebas Woodward Kelly and Dr. Joseph H. Kalbfus were accidentally killed on August 10th, 11:52 a. m. 1919 at Fairley crossing, Mead township, Warren county, Pa., by an express train on the Pennsylvania railroad, United States Railroad administration going east. We recommend to the Pennsylvania Railroad commission and to the State Highway commission the abolishment of the grade crossing at Fairley crossing, Saybrook and the establishment of a grade crossing on the State Highway department that a "dangerous crossing" sign be erected. Two hundred feet on the state highway on either side of the crossing.

Many Witnesses Called Several witnesses were called yesterday among them the train crew and residents of Saybrook who had testified previously. They were given a thorough cross examination by Attorney Gleason, of DuBois, who was in the city representing the Kalbfus and Kelly families. The cross examination roused the ire of Attorney Cossiter of Erie, who represented the railroad at the hearing. Both clashed several times verbally and finally both left the room when the train sheet of the railroad showing the running time of the train was asked for in evidence. This showed the train to have run from D. W. tower at Warren to the Clarendon tower a distance of six miles in seven minutes. This convinced the jury that the train was making about 60 miles an hour when the accident happened.

A civil suit will undoubtedly result with the families of the dead men asking damages from the railroad company for the death of the two men.

BEAUTIFUL WOMEN A FEATURE OF PLAY TONIGHT

There are many beautiful types of fascinating girlhood in George V. Hobart's modern morality play, "EXPERIENCE." Mr. Hobart spent two years in writing the play, but an even greater task confronted the producers, selecting the various types of girls for the play. As Mr. Hobart had chosen in "EXPERIENCE" to have the various vices and virtues which Youth meets when he goes out into the world in search for fame and fortune, impersonated by charming young ladies, in order that just the right types be selected, a committee of artists was asked to assist in choosing the young ladies for the various roles. For the character of Love, hundreds of girls were considered before an ideal was found. Then there was much difficulty in selecting one to play Frivolity. This is a particularly difficult part and requires a young girl with a certain manner of reckless abandon. Then there was another tiresome search to find the young lady for the character of Excitement, for she must be restless, alluring and even dangerous. Just stop to think a moment if you know of any woman who could fill these specifications and then portray them on the stage, and you may appreciate the task that confronted Wm. Elliott, F. Ray Comstock and Morris Gost, the producers of "EXPERIENCE." One of the greatest difficulties they had was to find a young lady for the role of Slander. This is a character that carries with it the eternal indictment against womanhood. Until it was seen by the actors that Slander was a good part, she would undoubtedly refuse to accept it. This same trouble was found in selecting a young miss for the role of Deceit. Three of the most important characters in "EXPERIENCE" are Passion, Intoxication and Frailty. The greatest possible care had to be used in selecting a young lady for Frailty, and as for Passion, it was found that the greatest discrimination must be used in selecting an actress for this role. To put a vulgar woman in the part of Passion would make it absolutely repulsive, and so it was found necessary to find an actress who had both breeding and personality, and particularly must she be a capable actress to play the part of Passion. For Intoxication, it was discovered that the only one who could play this was a young person whose strongest beverage was from the soda fountain. These are a few of the difficulties that were successfully overcome by the producers in selecting the young ladies for the various roles in "EXPERIENCE."

"EXPERIENCE" comes to the Driggs Theatre tonight.

ALTOONA WORKMEN TO BE LAID OFF

ALTOONA, Oct. 8.—Fifty boiler makers and 25 helpers employed in the Juniata shops of the Pennsylvania railroad have been notified they will be laid off October 14. A temporary shortage of steel is no doubt responsible.

In order to determine the nature of the work which will succeed their war services, the national board of directors and the state and local chairmen of the National League for Woman's Service is soon to hold a conference in New York City.

Consideration of problems on an international scale to elevate the plane of woman's labor in the world will be taken up by the International Congress of Working Women, which is to meet in Washington this fall.

GRAMPIAN VILLAGE HAS DISASTROUS CONFLAGRATION

The little town of Grampian was visited by a disastrous fire last night about 10 o'clock when the frame building housing Alex McGrath's store and the barber shop and pool room of "Rit" Wertz and the plumbing establishment of Clyde Hepburn were totally destroyed together with the bulk of their contents.

It is said the fire was caused by the explosion of a barrel of roofing cement in the ware room of the plumbing shop. The flames quickly spread despite the noble efforts of Grampian's bucket brigade. The Curwensville fire department was called upon for help and Chief Benner and Curwensville's fine new gasoline pumping engine was soon enroute to the scene. They got into action promptly on their arrival and after a few minutes hard work had the flames under control.

The loss is estimated at \$15,000. Mr. Hepburn was drawing the cement from the barrel into cans when the explosion occurred, and was enveloped by the flames, and severely burned about the face and body.

Tom Moore, William Bachler and Mike McGrath were also painfully burned about the hands and face during the fire.

Mr. McGrath's loss is about \$5,000, with no insurance, while Mr. Hepburn will lose \$1,000 and he was also without insurance. Wertz's loss of \$1,500 was covered by insurance.

GULF STREAM SAID TO BE HOT ENOUGH TO POACH EGGS

NORFOLK, VA., Oct. 8.—Marine men blame the Gulf Stream for the summer weather now prevailing along the Atlantic coast. They say the water of the Gulf stream is almost boiling.

In Norfolk today the temperature was 86 degrees. A hundred miles out to sea just before the Gulf stream is reached the temperature was 101, according to information brought here by marine men. Within one day's run from Norfolk by water there is a difference of nearly 40 degrees in the temperature. It is as hot in the Gulf Stream, marine men say, it is almost unbearable to remain on deck during the day.

Vessels passing through the peculiar water during the day say the weather is hotter than they have ever experienced before. A difference in the temperature of the water dipped from the Gulf Stream with buckets from ships with that of the ocean itself is the difference, marine men report, between moderately cool water and that warm enough to poach an egg. The Gulf Stream water is lighter than the remainder of the ocean and when first dipped foams and bubbles like water just on the point of boiling.

It was reported today that an American destroyer would go out to the Gulf Stream with a party of experts for the purpose of making observations for use by the government and to ascertain if reports brought in by merchant ships are authentic.

Local Business Man Does't Care If All the Babies Starve

Attempts To Chase Solicitors From Store With Weapon And Calls Them Vile Names

INSULTS PUBLIC SPIRITED MEN

"The man who cannot hear the cry of the starving babe, the man who is deaf to the entreaties of the frantic mother, the man who cannot respond to the necessities of aged men and women, surely cannot be called a Christian."

—From Progress of October 4th

Lives there a man with soul so dead, who never to himself hath said, the dollar I might give would save life and health for starving babies.

There is such a fellow (we cannot call him a man) and he lives and is doing business right here in Clearfield.

The soliciting campaign for the Jewish War Relief fund was begun in Clearfield Monday and the energetic committees in charge are meeting with pretty general success. A committee composed of J. B. Nevling and A. Mirkin called upon the business men we have in mind on Monday and were refused a contribution on the ground of inability to contribute.

Tuesday morning, as is the general practice in these drives another committee composed of Messrs. Joseph Littman and W. P. Sheeder visited the same store on a similar errand. Mr. Littman was the spokesman. On entering the place Mr. Littman said: "Mr. _____, we are a committee of Clearfield business men engaged in soliciting money for the Jewish War Relief; one merchant in your line gave \$50, another \$10 and you of course may give what you see fit."

The person addressed replied: "To hell with you Jews; I wouldn't give a cent to save ten of you from starving."

Mr. Littman then replied, "Well, my dear sir, you must understand that this fund is being raised to buy bread for the starving people of the war ravaged lands of Europe and when a bread line is established an American bounty handed out it is supplied to all the needy Jew and Gentile alike."

With ignorant boorishness the person addressed then replied: "To hell with you _____"

get out of here you Christ killer," and with that rushed over to the counter and picking up an iron cleaver or box opener made as though to drive them from the room.

Mr. Littman walked right over to the fellow and in a quiet voice said, "Don't try to intimidate us with your weapon; we are not afraid of you, the law will protect us in this matter. We are business men like your self. I have given \$100 to this fund, Mr. Sheeder has given \$50 and in addition thereto we have put aside business for the day and are giving our time to this work as a duty to our humanity and as a matter of public duty. Personally you have hurt my feelings to such a depth that I cannot express, but I want to tell you that you are a disgrace to humanity and to Clearfield and Clearfield business men."

With that parting shot the gentlemen left the store with the raucous voice of the "disgrace to Clearfield business men" hurling epithets after them.

When the story was first given The Progress we could hardly believe that Clearfield had within her borders a man who harbored such dark age feelings, but after visiting the solicitors we were assured that the Co., Clearfield, Pa. 08-3t-ch facts were as stated herewith and we

THIRD WARD RESIDENT DEAD

Mrs. Mary A. Dale, widow of the late John C. Dale, passed away at the home of her son Samuel Dale, on the Third ward, Tuesday morning, October 7, 1919, at 10 o'clock in the 89th year of her age.

The deceased had been in failing health for some time and her death was not unexpected. She was a consistent member of the Presbyterian church and enjoyed the respect and esteem of a wide circle of friends.

Her husband died last year and she is survived by a family of eight children as follows: W. Milton, Benjamin, Frank, William, Mrs. R. L. Whitehill, Ezra, Samuel and Mary Henderson, of Clearfield and Mrs. William Wilson, of Suwayor.

The funeral will be held at her late home Thursday afternoon at 2 o'clock. Rev. R. W. R. officiating. Burial at Mt. Joy.

STARK OPENING

NEW YORK—The stock market opened today with a sharp drop by strength among leading issues. United States Steel opened at 107 1/2 up 1/2, Bethlehem at 133 1/2, Central Leather at 110 up 1/2. Mexican Petroleum at 216 off 1/4.

SLIGHT FIRE IN EAST END

Mooley scolded the fire about 1:50 this afternoon for a small fire in Wrigley Avenue. The firemen all turn out but the fire had been extinguished by the time of their arrival.

POCKETBOOK FOUND

A pocketbook belonging to Mrs. John H. H. of Clearfield, or Lumber City, was picked up on Second street today by a school boy, Shone and left at The Progress for the owner.

MARY A. DALE'S FUNERAL

The funeral of the late Mrs. Mary A. Dale will be held from the home of her son Samuel Dale on the Third ward on Thursday afternoon at 2 o'clock. Interment in Mt. Joy cemetery.

JEFFERSON COUNTY RELIEF FUND HAS NEAR BEER SELLERS GOOD SUPPORT FROM ARE IN DANGER LOCAL PEOPLE

Hundreds of cigar, grocery and fruit store dealers in Jefferson county have laid themselves open to arrest and prosecution on charges of breaking the Brooks high license law by selling various beverages containing alcohol, although its volume is less than 2.75 per cent. according to a decision just given by Judge Charles J. Corbett.

Constables of the neighboring county have been making inquiries of county authorities concerning the provisions of the Pennsylvania prohibition act with the result that there may be many arrests made in the near future.

Answering the query of a constable one county official stated that the Pennsylvania Prohibition Enforcement act prohibited the sale of beverages of "any" alcoholic content and that persons engaged in the whole sale or retail distribution of beverages known to contain even so little as 1-10th of one per cent of alcohol were liable to arrest and prosecution and that it was the constable's duty to make such return if he has knowledge of such sales.

The opinion of the official in question was confirmed yesterday by Judge Charles Corbett who stated that the state law was very specific and that any person engaged in the sale of any beverage whatsoever, containing the slightest percentage of alcohol, was liable to arrest and punishment under the provision of the Enforcement Act.

The National Prohibition Enforcement Act and that of Pennsylvania differ in some respects but those in this state who are engaged in the sale of beverage containing alcohol in the belief that they are protected by the National act are declared to be apt to find themselves "in Dutch" with the state or county authorities.

OLD VETERAN SERIOUSLY INJURED

Samuel Snook, a Civil War veteran who has been in failing health for some time, met with a serious accident at his home on Third street last evening about 6 o'clock, when he fell backwards down a flight of stairs leading to the second floor. He suffered a double fracture of one of his ankles along with other serious cuts and bruises about the head and body. He was taken to the Clearfield hospital for medical attention and where he is lying in a critical condition.

INVITATIONS ISSUED

Mrs. J. W. Gordon has issued invitations to a dinner party at her home on Locust street, Friday evening, October 10th.

I saw it in The Progress.

Local people are responding nicely to the plea of the Jewish War Relief Campaign and the fund is growing every hour. A number of the local business men are giving their time to the work.

The campaign looks very hopeful and as soon as the house to house canvass subscriptions are reported there is expected to be a considerable amount added to the fund. The fund is growing like a weed and with three days to go it should easily reach the quota. The quota in Blair county has already been three fourths reached and they should go over the top easily.

The actual canvassing for the fund being raised for the relief of the Jews in Europe has been started in Clearfield and will continue until the quota is raised. It is anticipated by the Chairman and the committee that the quota will be raised within one week at the outside. And this is just what is going to happen if continued hustling can do it. The committee has mapped out its plans in a thorough manner and will have an energetic committee of solicitors at work during the ensuing days.

It is absolutely necessary for every community to do its full duty in regard to raising money for this cause. It is without a doubt one of the most worthy that has ever been presented to this country. There are thousands of children in countries of Europe who will starve beyond the peradventure of a doubt unless there is a liberal cash contribution from the United States. These children and infants are to have no opportunity for life unless aid comes—and comes quickly. It is no fault of their own nor of their parents that they are thus situated. It is not exactly the fortunes of war, but rather the fortune of the post-war period. They have been made to suffer untold hardships, indescribable suffering and given no chance for working out their own salvation, and it is only through the generosity of the people of other countries that will carry them thru the winter that is facing them.

It is a safe proposition that the people of this country will respond in a generous manner if they see the light, all that the committee asks is that their cause be given a fair hearing. It is felt that if this hearing is given that there will be no question of a quick response and a liberal one.

CLEARFIELD COUPLE MARRIED AT LOCK HAVEN

Harry Tribelbeck and Miss Lena Green both of Clearfield, were united in marriage Monday afternoon by Alderman John P. Anthony at his office in Lock Haven.

Invest In a Human Life

This little one, and 800,000 like her in Europe alone, must die if YOU close your heart.

From the day the founder of her race rose up against the idolatry of his fathers and found the true God, and gave unto mankind a God of Love and a God of Mercy, many hands have risen against her. Yet she lived that Religion might not die.

Today, when Jew and Non-Jew have united in a common brotherhood, when in America, in England, in France, in Russia, in Poland, the son of Abraham and the follower of Christ bound in common memories of heroic sacrifices on the battlefield that Civilization and Humanity might be preserved, have struck the hand of friendship — today, this little child and all of her race are facing absolute extermination. Not a human persecutor now—Famine and Pestilence and Cold have united against these helpless ones. They have but one salvation.

You Alone Can Save Them

This is a campaign by Jewish Relief Agencies for a fund which is disbursed by Jewish representatives. But the only question asked by these men is the need of the applicant.

SPORT NOTES

Young McCoy, the Altoona middle-weight boxer who was signed up last week by Promoter DeLozier and manager Edwards to meet Johnny Worgast, of Lancaster at the Clearfield Driving park on October 16th, arrives in town this morning and will remain here until the bout is pulled off, doing his training in the gym in rear of Edwards' bowling alley on Third street.

The boxing bout at the Driving Park next Thursday evening, October 16th will be between Young McCoy, of Altoona, and Johnny Worgast, of Lancaster. This match was arranged last week and in consequence thereof the McCoy-Ike Griffin scrap cannot be held until later on. It is expected now that Griffin will be matched with the winner of the McCoy-Worgast battle.

The Roberts-Platts wrestling bout at the Park Friday evening is attracting a great deal of local attention and Roberts will be the favorite of many of the local followers of the game when the two men go to the mat.

WORN NERVES

Nervous troubles, with backache, dizzy spells, queer pains and irregular kindneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors.

Mrs. Mary Passmore, 419 West Front street, Clearfield, says: "I suffered for a good many years with kidney trouble. Whenever an attack came on, my back became lame and sore and I had a dull pain across my kidneys. My kidneys would annoy me by acting irregularly and I would become nervous and restless. I had frequent headaches and dizzy spells, but at such times I used Doan's Kidney Pills, which I would buy at Dooly and Stewart's Drug Store, and they always gave me relief, easing the pains in my back and regulating my kidneys."

Mrs. Passmore gave the above statement Dec. 7th, 1915. On Feb. 17th, 1919, she added: "I think as much of Doan's Kidney Pills as I always did. I still use them occasionally with good results."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Passmore had. Foster-Millburn Co., Mfgs., Buffalo, N. Y.

BROWN'S

Four Reason's Why It Pays To Trade At BROWN'S

BROWN'S through their four stores do a large volume of business on shoes exclusively.

BROWN'S sell high grade shoes at moderate prices—no high priced novelties and worthless cheap truck.

BROWN'S four large stores are in reality one immense store. All carry the same line at the same prices. Each one draws on the others for sales needed, balancing size runs and allowing better service.

BROWN'S system reduces the volume of odds and ends that have to be sold at a sacrifice which permits them to sell shoes at a closer margin of profit.

LOOK! LISTEN!
Terms of sale strictly cash. No goods sent on approval. Mail orders and phone orders will not be filled.

STOP! READ!
One thing which we wish to impress upon your mind, and that is, no firm is disposing of their merchandise at such low prices, unless they are compelled to do so. As it would cost more than the regular retail price to replace them, do you realize that it is hard to get merchandise at any price, this is the reason so many are going out of business. There is no such thing as cheap merchandise now.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Edward Benson, one of the town's mail carriers, has sold his property at Naulton, in borough limits, to Harry Turner, receiving for the same the sum of \$1650.

Mr. John Raybold, who was a telegraph operator at the P. R. R. station here some years ago, now residing in Altoona, was a Curwensville visitor over Sunday.

Harry Howell has sold and transferred his property over on South Side, to Charles Lord. Consideration, \$1,400.

Messrs. Merrill Caldwell and O. C. Norris, while on their western auto trip and during their stay in Montana, secured a number of Elk horn specimens. They were boxed and shipped over two months ago and only arrived here Saturday. The horns are fine looking ones, several of which measure four feet in height. They are certainly valuable and a great curiosity for Curwensville boys to feast their eyes upon.

Linn Daugherty, one of the leading hardware dealers of Curwensville, is somewhat of an artist in his way, judging from one of his store window displays, trimmed to represent the autumn months. A small tree, with its leaves colored in a thousand different tints, stands in the center of the front window, and a group of hedges, partially encircled by holly leaves, two pine needles, and a few red berries, making the scene a typical

autumn one. A card in the window, the reading of which is a puzzle to the small fry. It says: "Can you find the Rabbit in the Window?"

We have been requested to announce that the regular business meeting of the Ladies Aid Society of Curwensville will be held on Monday night, after the prayer meeting, at 7 o'clock.

A Curwensville man was heard to ask yesterday: "What do they want with so much money for this Jewish relief fund?" Here is his answer and let him who reads ponder over the words well and let them sink deeply into his mind and soul: "Starvation is the cause of the campaign." Five million souls, old men, old women, and little children in Poland, Lithuania, Russia, Palestine, Galilee, Turkey, Syria, Roumania, Greece and Bulgaria are in imminent danger of starving to death this winter. The cause of this condition is indicated by a statement of Herbert Hoover, who says that at least one million people will die of starvation in Eastern Europe this winter—and this despite the combined efforts of American relief agencies. Countless others will perish from the horrible scourge of hunger and cold unless America comes immediately to their aid.

There are six million Jews constituting almost one-half of all the Jews in the world and most of them are children and old people; the fit having been used for Russian cannon fodder. The Jews themselves have, up until now, taken care of them but the burden has become too heavy.

THIS COLUMN FOR BOYS AND GIRLS AND PARENTS

"I Like the Campfire Squaw"

By R. K. Alexander
Hunting Eye heard a scream. He ran down the bank of the river. A girl was struggling in the water. He dived in, swam to her and brought her to shore. By that time many more girls were on the bank. Hunting Eye was surprised to see that, although white,

they wore clothes like the girls of his tribe.

The girls were amazed to see the athletic young Indian who swam so swiftly and powerfully. They told him that he must go with them to the Guardian of the Fire.

"What fire?" asked Hunting Eye.

"Oh, we are Campfire Girls. The girl you have just rescued is the head of the Campfire."

Soon they came to the camp. The Guardian thanked Hunting Eye. The girls collected wood, made a roaring fire, and, while Hunting Eye's wet clothes were drying, they told him all about the Campfire Girls.

"All Campfire Girls," they said, "begin as Woodgatherers. They learn about health, home-craft, nature lore, camp- and hand-craft, business and patriotism." Their watchword is "We help."

"What does 'We help' mean?" asked Hunting Eye.

"It means Work, Health, Love; it is the first two letters of each word. If the Woodgatherer works, she can become a Firemaker, but first she must know how to cook a meal, how to use the useful knife and what to do when someone's clothing catches on fire, or when someone is drowning, or faints, or has an open cut, or a frost-bitten foot. She must know the words of 'America'."

"What is 'America'?"

The girls sang it for him. "I like the song," he said. Then they filled his pouch with good things to eat, and, as Hunting Eye started out again, he thought, "I like the Campfire squaws."

Hard Wood for Outdoor Fire

By Adella Belle Beard

HICKORY is a hard wood; it makes the best fire, burns long and leaves a bed of hot coals that last for hours. Of course you know a hickory tree when the nuts are on it, but can you identify one without them?

The skeleton of the shag bark hickory shows a trunk forked into two or more divisions, with irregular branches here in several directions. Some branches grow slanting upward, some at right angles from the trunk, while others start up, then make a deep curve downward. The bark is ragged and untidy, the wood strong and tough. From five to seven leaflets grow on one stem. They are long, rather narrow, have saw-tooth edges and tapering tips. The blossoms are katkins, light green, slender and growing in threes.

The wood of the WHITE OAK is hard and strong and comes next to hickory as good fire wood. The tree is large and the trunk undivided, but at the top curving and sending out the branches. The limbs are long and strong, the branches gnarled and twisted; the lower limbs grow at right angles to the trunk. The bark is light gray and the acorns fit in rough, shallow cups. The leaves have rounded lobes.

BLACK BIRCH (sweet birch) is also a hard wood that makes good fires. It is certainly a beautiful tree, summer and winter. You will know it by its bark which closely resembles that of a cherry tree. It is dark on the trunk, golden brown and glossy on the slender stems. The young trees have smooth trunks but on older ones the bark is split lengthwise as if slashed with a knife. The leaves are ovate, wide at the bottom with pointed tips, and have straight ribs. The flowers are katkins and there is a little acely fruit the shape of a nutberry.

Other hard woods that burn well are ironwood, dogwood, locust and mulberry.

Makes Cooking Easy

Any Time Is Baking Time With A Glenwood

The Easy Rolling Twin Grate Bars, neatly geared to roll forward or back, so quickly clean and brighten the old fire that perfect baking can be done at any time—morning, noon, or night.

The Marvelous Glenwood Oven, surrounded by hot air chambers is under perfect control, and can be uniformly heated to the moderate temperature of 300 degrees for the most delicate cake, or quickly advanced to the correct biscuit heat of 450 degrees.

This is made possible by the Glenwood Balanced Oven Damper and the Patented Glenwood Indicator that accurately registers the heat already in the oven and tells at a glance whether to open or close the sliding air valve. It's so plain and easy a child can understand.
